About Me

I'm a B.Tech Data Science Engineering student with a passion for backend development and data analysis. My strengths lie in consistent self-learning, strong DSA fundamentals, and a growing expertise in tools like Power BI and Django. I've built multiple ML and web projects and actively contribute on GitHub and LeetCode.

Skills

- **Languages:** Python, C++, R, SQL, C
- **Libraries & Tools:** Django, Power BI, Streamlit, TensorFlow, OpenCV, Sklearn, MySQL
- **Concepts:** DSA, DBMS, OOPS, Data Modelling, Data Warehousing
- **Soft Skills:** Teamwork, Communication, Adaptability, Leadership

Experience

Power BI Intern @ Edunet Foundation

Jul 2024 - Aug 2024

- Analyzed online sales and developed KPIs to measure performance.
- Built dashboards in Power BI to visualize trends and patterns.

Software Engineer Intern @ Naam Intelligence

Jul 2023 - Aug 2023

- Worked on Django routing, admin panel, and API testing using Postman.

- Modified models and templates to implement business logic.

Projects

- **Multiple Disease Prediction** – ML models + Streamlit for disease diagnosis.
[GitHub Repo](#)
- **COVID-19 App** – R + Shiny with real-time data and SVM.
- **Password Manager** – Python + MySQL with AES encryption.
[GitHub Repo](#)

Achievements

- Solved 100+ DSA problems on LeetCode
- Elite rank in NPTEL exams
- Secured 2nd place in RTU tournament
